Efeitos de queimadas na Amazônia na coluna de aerossóis em São Paulo

Andrea Castanho and Carlos Pires

Efeitos de queimadas na Amazônia na coluna de aerossóis em São Paulo

AOT (500 nm) in São Paulo and fire counts in Amazonia April/02 to Mar/03

Andrea Castanho e Carlos Pires

Goals & Tasks

Fire: Ecosystems and Atmosphere

Goal:	Tasks/Activities	Who responsible?
Integrated campaign: Experimental Forest Fire(s)	Site selection	Dan Nepstad
	Calendar of planned burns/coordinates	Bob Yokelson
	Forest inventory/canopy structure	Ane Alencar
	Post-fire forest recovery Biomass consumption	Oswaldo Carvalho Bob (Joao Carvalho)

Goals & Tasks

Integrated campaign:

Experimental Forest Fire(s)

MODIS

fire detection

Wilfred

scar detection

Jeff

vegetation change

Yosio

Aster-EO1

Jeff

CBERS

Jeff

Gas msts above fire

Joao Carvalho

**Model validation (O3,
aerosols, etc)**

Pedro

Nutrients transfers

Bob will check

Definition of date

Wilfrid

Firemapper 2??

Wilfrid

Goals & Tasks

**Integrated campaign of fire
scar monitoring/analysis**

**Training in GPS standard
protocols**

Doug Morton

**Developing a training
dataset for active fires, by
veg type, among the
broader LBA community
Involve Proteger, social
movements in fire
monitoring**

Doug Morton

Dan & Jeff

**Timetable of planned fire
activities among LBA
community**

Doug??

Undergraduate fire rover **Wilfrid**

Goals & Tasks

**Fire-related health risk
approach**

**Complete aerosol and CO
and CO₃ model (Saulo &
Karla)**

Saulo & Karla

**operationaliza at usp &
cptec**

Saulo & Karla

**Contact health
experts/economists**

Dan

**Contact health
experts/economists
incorporate smoke-
related illness
information into SUS
system?**

Pedro

Goals & Tasks

**CO2 emissions from active
fires**

**Integrate into airborne
and remote sensing msts
Inverse modeling**

**Karla Longo
Marcos Longo**

Goals & Tasks

Ozone and forest health	Study impact of high conc of ozone on vegetation	Mercedes
